

# GENDER EQUALITY

## Aligned with UN SD Goal 5 (Gender Equality)

For a society to develop in a holistic way, its women population needs to be positively empowered. To have empowered women, the first step is to have gender sensitization, mutual respect for both the genders. Taking this forward, Prabhaav Foundation organized a seminar to make the younger generation aware of the importance of respecting the opposite gender. This was chaired by Ms. Arti Mehra and many young women expressed their views on the topic.
